## Important Disclaimer

- Delivery date will be held as close as possible. Due to weather and travel problems, you will be notified if a delay results.
- Cancellations must be made by March 15. No refunds after this date unless packages can be sold.
- Bees **MUST** be picked up on the designated pick up day during our pick up schedule. If you are out of town please arrange for someone to pick up for you.
- Package bees not picked up within 24 hours of pick up day **will be forfeited with no refund**

**Cost:** Because it is costing more to keep bees healthy, all package producers are raising their prices to us, but we decided not to raise our prices at this time.

Our package bees are a cross of Buckfast with Italian using Minnesota Hygienic behavior

**Bee Syrup Feeder:** The spring weather the last couple of years has not been very good for starting bees. The type of syrup feeder is very important for success of the colony. Again we offer a sturdy one gallon feeder pail with a screen hole that can be inverted over the inner cover hole, enclose with an empty hive body. **This is the very best type of feeder for inclement weather.** Order ahead and save

**If you know anyone interested in beginning beekeeping please tell them about the class**

**Beginner beekeeping classes: February 24, 2018 from 8:00 to 3:30 at Peace Lutheran Church in Baldwin. Located 1 mile south of I94 on Hwy 63. Cost of class will be \$96.50 and \$20.00 for extra family member. Please check below for which class you wish to attend**
